

FitnessSwipe

Your trainer Studio in the FitnessSwipe app

Local clients. A trainer card that works for you.

WHO IT'S FOR

You are a personal trainer and want to reach people who are actively looking for someone like you — without fighting Instagram's algorithms and without commissions on your sessions.

WHAT YOU GET IN THE STUDIO

- A card in the trainer catalog: specializations, experience, pricing, client reviews
- Followers — they get a push about every event and group session you create
- Client inbox: enquiries from your card in one place, separate from regular chats
- Stats: card views, new followers, a weekly report
- Promotion across the app: a card in the swipe deck, a tile in challenges, a live map marker
- A "Verified trainer" badge after submitting your certificate

HOW YOU WIN CLIENTS

- Users switch on "Looking for a trainer" — you see them marked in the app
- Enquiries land straight in your inbox — you reply and book the session
- After a shared workout you request a review with one tap — credibility grows

WHAT IT COSTS

A €14.99/month subscription — no commission on your sessions; you set your own prices and settle directly with clients. Launch price: subscribe now and you keep the rate. Special offers for the first trainers — get in touch.

Set up your Studio in 5 minutes
